ABSTRACT:

PROBLEM TO BE SOLVED: To provide a seal for postage stamps with perforations which is usable as printed matter of advertisement junctual to postage stamps, indicia, etc., can make strong appealing when receiving postal items by making the advertisement matter, blurbs, etc., as the postage stamps, indicia, etc., and reduces the cost of making.

SOLUTION: The top surface of the seal 1 for postage stamps with perforations is formed with a portion for affixation of the postage stamps or printing of the indicia, etc., or for printing of the advertisement and further the seal is disposed as seal areas subdivided together with the affixation area 5 of the under surface by the perforations. The top surfaces of the respective subdivided seal areas are formed as the areas for affixation of the postage stamps or printing of the indicia, etc., or for printing of the advertisement.
